PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building scalable web applications using Java, Spring Boot, REST API and MySQL, along with freelance experience in developing responsive applications using HTML, CSS, JavaScript, and ReactJS. Strong in OOP, data structures, and database design, focused on delivering efficient and impactful solutions.

SKILLS

Technical Skills : **Programming:** Java, PHP, Basic Data Structures

Frontend: HTML, CSS, JavaScript, React JS, jQuery, AJAX , Bootstrap

Database & Framework: MySQL, Spring boot, DBMS, REST API, JDBC

Concepts: Object-Oriented Programming (OOPs), SDLC, Agile Methodology, 3-Tier Architecture ,CI/CD

Soft Skills : Problem Solving, Debugging, Team Collaboration, Analytical Thinking

Tools : Eclipse, VS Code, Git, GitHub, AI-assisted development tools, Postman ,WordPress

EXPERIENCE

Freelance Web Developer, Jan 2026 – Present

- Developed a responsive user query and support portal using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Designed an interactive UI improving user engagement and usability, Handled multiple user queries efficiently through the platform.

PROJECTS

DESKTOP BASED CODE EVALUATION AND PRACTICE PLATFORM (JAVA and MySQL):

- Built a Hacker Rank-style code compiler system that provides user signup and login with database authentication. It allows users to view coding problems, write programs, compile and execute code in real time, and automatically validate outputs.
- The system uses Java Swing for UI, JDBC for MySQL integration, and core Java execution features to simulate an online coding platform.

STUDENT ACADEMIC & ACTIVITY TRACKING SYSTEM (MySQL):

- Developed a SQL-based Student Management System to store and manage student details related to academics, placements, extracurricular activities, and sports participation.
- Designed normalized database tables and implemented SQL queries to perform data insertion, retrieval, updates, and filtering of student records.

INSTAGRAM CLONE (React JS):

- Developed a front-end Instagram clone using React JS to understand component-based architecture, state management, routing, and responsive design. The project enhanced my skills in React Hooks, API integration, and real-world UI development.
- Technology used in this project include React JS, JavaScript, Bootstrap, JSON, HTML, CSS, GitHub.

EDUCATION

SONA COLLEGE OF TECHNOLOGY

Bachelor of Engineering (Electronics and Communications Engineering),
CGPA: 7.4

Salem
2021-2025

CERTIFICATION & ACHIEVEMENTS

- Master Program in Full Stack Development Using JAVA.
- NPTEL Certification in Java Programming
- Workshop on IOT Sensors.
- Served as an Office Bearer in my college, contributing to event coordination and overall team leadership.
